HOW THEY VOTED

UNDERSTANDING THE LOUISIANA STATE BUDGET

BUDGET BASICS

- The Legislature appropriated nearly \$28 billion for FY 2017.
- This is the highest level of funding for state government since the influx of hurricane recovery dollars following Katrina and Rita.
- Meanwhile, the private sector in Louisiana is in a recession with more than 19,000 jobs lost in 2015 and 2016.

THE LOUISIANA STATE BUDGET IS GROWING...

Source: Louisiana State Budget

Louisiana's jobs deficit is growing yet our government deficits never seem to shrink. We must start funding a reformed government that is proportional to our economy rather than over-taxing our economy to fund an unreformed government.

- Stephen Waguespack, President & CEO, LABI

EVEN AS THE LOUISIANA ECONOMY IS IN A RECESSION.

Employment Growth Year Over Year (% change) – Legislative Fiscal Office data.

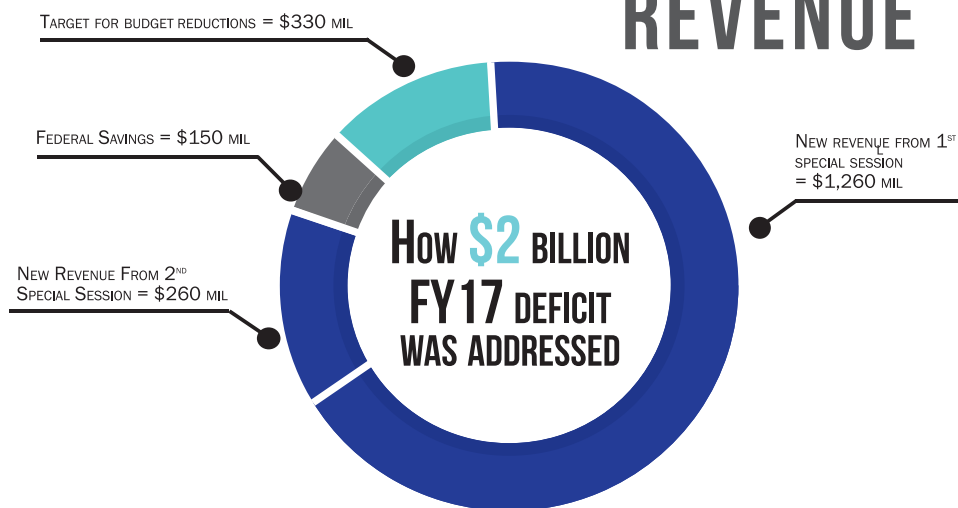

MAJOR FACTORS IN THE DEFICIT

- A “deficit” exists when the full cost of state government is greater than the annual projected tax revenue.
- The expenditures of state government have been increasing faster than tax revenue...
- ...And there has been little to no effort to truly prioritize and limit state spending.

DESPITE THESE 3 FACTORS, LEADERS HAVE LARGELY FOCUSED ON ONE WAY TO ADDRESS THE DEFICIT: **MORE REVENUE**
